George Franzen

Dear George:

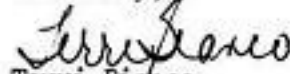

First I would like to say that your performance as a magician was superb and I was very happy with it. Getting your phone number out of the telephone book and calling you made me a bit skeptical at first as I had never seen you perform. When I first called you I was made very comfortable by you.

Your magic is suitable for both children and adults alike. My son being seven years old enjoyed your show tremendously and so did the other children as well as their parents. You truly made the party a success. When Jimmy went back to school the kids couldn't stop talking about it and even raved to their teacher.

Your magic is very real and believable as any magicians I have seen on television. I would recommend you to anyone and will. As far as your appearance and equipment it was very professional.

In the future if I make any more parties I would definitely consider using you again.

Sincerely,

Terri Bianco
