Mr. George Franzen
Franzen the Magician

Dear George,

Thank you for the excellent presentation for the six year old birthday party celebration in our Kindergarten class.

The children from our Pre-Kindergarten and Kindergarten classes were truly delighted with your show. The audience participation and the variety of music captured their attention and it was delightful for our staff to hear their laughter and see their enjoyment. The children have continued to speak about the experience. It was truly an enjoyable event. The teachers were particularly glad that some of our shyest students were anxious to be your "helpers" on the stage!

I will certainly mention your program to other schools in our area.

Sincerely,

Sister Peggy Murphy, M.S.W.
Director
